# EVOLVE BIRTHDAY PARTY PROGRAM

## ABOUT

Forget about mini-golf and face-painting. Evolve's skateboarding and scooter birthday parties are totally rad and unique. Perfect for kids who have never skated before or skaters who want to introduce the hobby to their buddies, this party will get kids skating, learning new tricks and leave a lasting impression.

## TYPE OF PARTIES TO CHOOSE FROM

### A. AT YOUR HOME

Throwing a party at your home is ideal for smaller groups and requires flat, concrete space for effective (and safe) skateboarding. If your street does not have a smooth, concrete surface, no worries! A local basketball or tennis court will do the trick!

### B. SKATE PARK

Local skate park parties are an even more cost-effective way to bring skateboarding and scootering birthday fun to you. With ideal set-up already in place, all we need to do is hand out the gear and get ready to roll.

**WHAT WE BRING:** Evolve brings everything that is required to throw a totally awesome skateboard party. This includes a ramp, skateboards and scooters, all protective gear, a shade tent, loot bags and two qualified instructors to teach and entertain the children. It's a great way to get outdoors and experience a whole new kind of fun!
